"More value for your samples"

Interactive web catalogue
100% configurable
"The showcase of your
most valuable active"

Outstanding features

Donor (Human) / Case (Specimen)

- Registration: unitary / **quick (several at once or from Excel)**
- Donor anonymisation (*Human*)
- Sample collection / donation
- **Informed consents** (*Human*)
- Updated **taxonomic** classification (*Specimen*)
- Geographical location (*Specimen*)

Samples

- Configurable sample types
- Registration: unitary / **quick (several at once or from Excel)**
- **ALL the data will be shown in just one screen:** traceability, incidents, processes, storage, delivery...
- Aliquoting
- Labelling

Processing

- Configurable processes and tests
- Special processes: **samples pool**
- Processing by unit or **several at once**

Storage

- **100% configurable containers:** freezers, fridges, cupboards, liquid nitrogen tanks...
- Manual and automatic storage
- **Archive of samples entries and withdrawals**

Incidents

- Allocation of incidents to **samples or containers**
- Incidents management

Integration with robots

- Aliquoting robots
- Quantifying robots
- Freezers
- ...

Searches and exports

- Dynamic searches
- Search criteria: **ALL the variables**
- **Cross search** allowed
- 100% exportable data

Samples requests

- Samples requests
- Samples deliveries
- **Project data** registration

Communication and sharing

- Project data
- Samples data
- Research **results**

Security

- Access control
- Users management
- Access profiles configuration
- **Change control**
- Personal data protection (*Human*)

Other functionalities

- **Configurable labelling** and compatible with the main labellers in the market
- **Documental management**
- 100% configurable forms: cases / donors, collections / donations, samples, processes...

Future functionalities

- **Special processes: Tissue Microarrays (TMAs)**
- **Manager and viewer of images** associated to the samples

Are you thinking about
using software to
manage your biobank?

Contact us if you would
like to receive more
information or see a
demo.

Does your current
software not fulfil your
expectations?

Contact us to analyse the
possibility to
migrate to NorayBanks
the information in your
current software.
